# SPITWATER

## PRESSURE CLEANERS

### Cold vs. HOT WATER PRESSURE WASHING

**COLD WATER:** Uses sheer force to blast away dirt. While effective for general grime, it often requires higher pressure or chemical detergents to handle non-water-soluble messes like oil and grease.

**HOT WATER:** Softens the bonds of grease and oil, making them easier to remove. It reduces cleaning time, detergent use, and the pressure required.

**THE HEAT ADVANTAGE:** Increasing water temperature by 10°C doubles the chemical reaction rate that breaks down grime, resulting in faster cleaning and drying.

SPITWATER'S #1  
SELLING SPITWATER MACHINE

### 10 L/m Hot & Cold Water Electric Waterblaster

- Agriculture and Automotive workshops choice for over 30 years
- Performance and reliability makes the 10-120H the affordable option

MODEL:		10-120H	
PUMP PSI	1800	MOTOR	3HP
